

Xenpro™

Professional grade insect based frog food made with the best ingredients ever sourced for frog health and nutrition. **Made with Black Soldier Fly Larvae.** it is an **Insect Blast™** that xenopus love.

Low fat, high protein, Vitamin Supplemented, sustainably sourced!

Instructions:

Feed by introducing small amounts of food multiple times. If there is food left over on the bottom you could be feeding too fast or too much. Frogs usually will not eat food after it has been in the tank for 5 minutes. Feed frogs close to satiety. Measured amounts of food can be used as long as the frogs are consuming most of the food.
